

Frozen Scallops

- Wild Caught or Farm Raised
- Individually Quick Frozen

Frozen Scallops

Eastern Fish is one of the world's largest importers and marketers of shrimp.

Headquartered in New Jersey we've developed enduring relationships and partnerships with production, processing and packing facilities from Honduras to Thailand, from Mexico to Peru, from Ecuador to Indonesia and in many other countries best situated to meet the demands of a global marketplace.

Sail Brand, our signature brand shrimp, is grown and processed only under strict HACCP controls to ensure the highest product quality and consistency standards.

Eastern Fish partners with suppliers that implement and maintain BAP standards to assure industry stewardship. Where BAP standards do not apply, we work to source our product from only well managed or certified fisheries. Sustainability, certification and traceability are the cornerstones of our everyday process. Our active participation in the industry's major environmental and food safety organizations include memberships in the National Fisheries Institute (NFI) and the Global Aquaculture Alliance (GAA).

Eastern Fish Company is a leader in private label programs for retail and food service. Whether you are a restaurant, retail, or foodservice we have a program for you!
