

GOLDEN HARVEST

BY EASTERN FISH CO.

Golden Harvest by Eastern Fish Company is committed to providing customers with the highest quality and innovative value-added seafood products in the industry. We make it our goal to enhance the consumers' experience.

It is our commitment to bring savory culinary trends from sea to table.

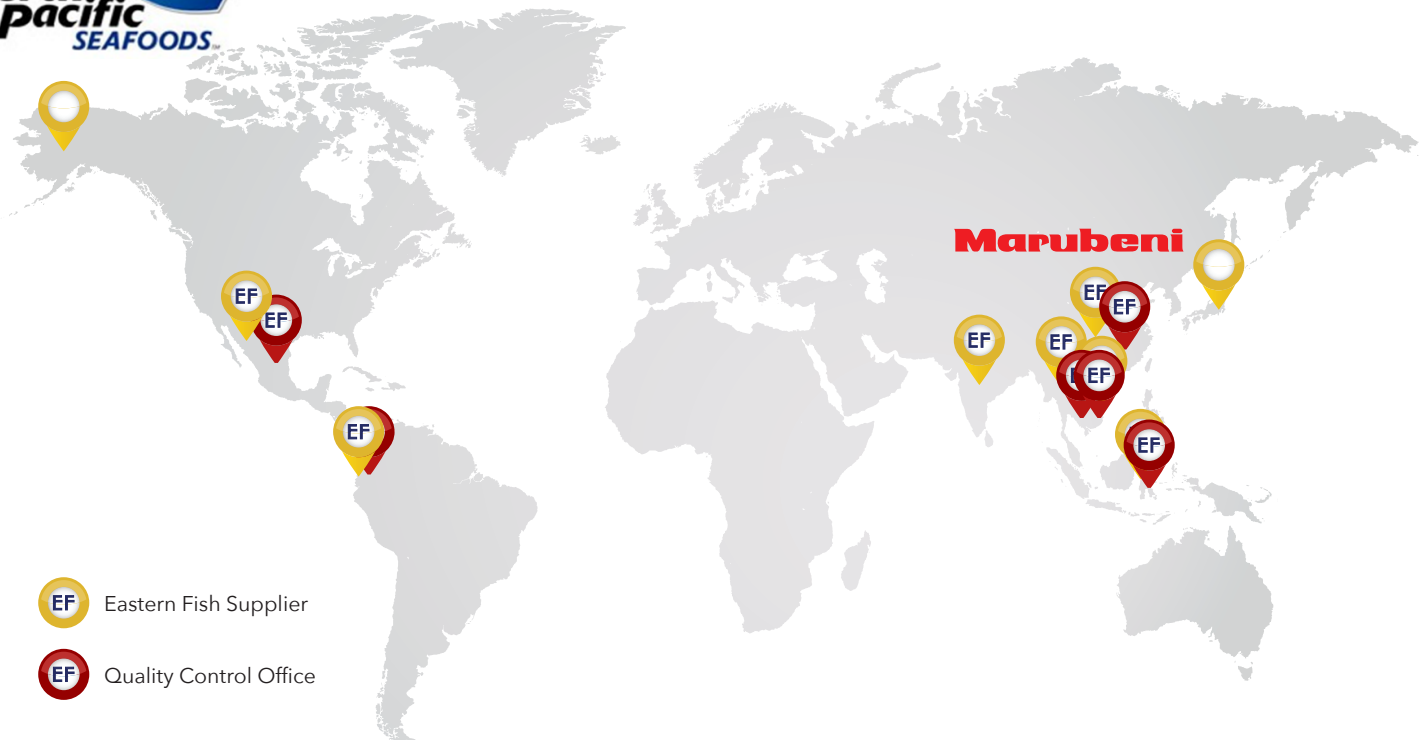

CONTROLLING QUALITY & SAFETY

We strongly support the ongoing efforts of the Better Seafood Bureau, which works alongside the FDA to further establish economic integrity within the seafood industry. While the FDA's primary mission is product safety, the Better Seafood Bureau works to address issues such as short weights and counts and maintaining accurate country of origin information. It is our mission at Eastern Fish to focus on food safety, and as a result, we are proud of earning our International Featured Standards (IFS) Broker Chain Of Custody certificate. IFS Chain of Custody certification, which falls under the GFSI scheme, is an extra step we take to guarantee the supply of premium quality products.

OUR GLOBAL QUALITY CONTROL PROGRAM

To best serve our loyal customers, we maintain quality control office in Thailand, Indonesia, Vietnam, China, Ecuador and Mexico. Because we are in global industry, we've developed enduring relationships and partnerships with production, processing and packing facilities from Asia to Latin America.
